GlobeSpotter for ArcGIS Pro Installation Manual

# 1. Installation

To install GlobeSpotter for ArcGIS Pro, please perform the following steps:

1) Check if Adobe Flash Player is installed on your computer. If you do not already have it, please download and install it first via http://get.adobe.com/flashplayer/.

2) GlobeSpotter for ArcGIS Desktop can be installed from a disk or network location:

    I.   Copy the Add-In file to a (local) disk or network location.

    II.   Start ArcGIS Pro.

    III.   Select menu: *Project ► Add-In Manager* and select the *Options* tab.

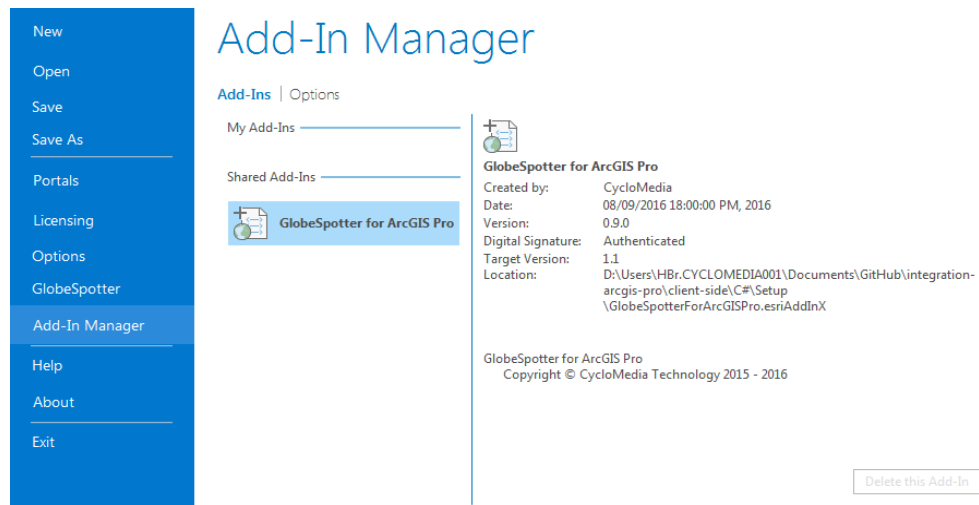

Add-In Manager, Options tab.

    IV.   Click *<Add Folder...>*. Browse to the folder were the Add-In file is located and click *<OK>*.

*Browse to the folder where the Add-In file is located.*

    V.   Close the Add-In Manager and restart ArcGIS Pro.

    VI.   Select menu: *Project ► Add-In Manager*.

VII. Check whether GlobeSpotter for ArcGIS Pro is '*Authenticated'*. If the Add-In is '*Untrusted'*, close the Add-In Manager, close ArcMap and install the certificate 'thawte-intermediate-ca.cer' first (which is made available together with this user manual).

Add-In Manager, Add-Ins tab, check if GlobeSpotter for ArcGIS Desktop is 'Authenticated' or 'Untrusted'.

VIII. To install the certificate, please perform the following steps:

   i. Double-click on 'thawte-intermediate-ca.cer' to install the certificate.

Install the certificate.

   ii. Click on <*Install Certificate...*> to start the installation wizard for the certificate.
